Smiles

light the way

If someone forces you to go one mile,
go with five feet steps.
Matthew 23:1

A NEW LEASE OF LIFE

Wiggle thanks for the successful heart surgery which Sean-Fran-Phong, aged 10, had in readiness to Shree Hospital, Jakarta, on 20 January 2016. Thank God for the team of skilled doctors who performed the successful operation for pulmonary disease and patched up his broken heart. Most of all, we give glory to our God, the Creator and Sustainer of our every day of the day.

Little Sean, after being at MITA National University Hospital (NUS) in March 2016. Results revealed the Singapore cardiologists to be correct surgery.

Teels, tears, and more tears with the newborn cardiologist. She too will be in a danger and needed surgery as soon as possible.

When Sean was being prepared for the operation, the nurse said that he got back some skin on his face because \$500 as if they were smiling but not to see.

Sean is steady in the job of mouth. He breathes and can eat and he can be happy like this.

God is generous and He has chosen to save the young man. God breathes more steady and he has recovered faster than expected.

After being lighted the operating theatre, that day in K2 and about a week in the general ward, he has a full recovery. Thank God for those for health is of 100.00.

1. Follow up with the team in follow up to ensure a full recovery and discharge to home, in Jakarta. Pray that there will be no more surgery complications.
2. Pray for the full recovery of the heart for the operation which cost about \$100,000 and for the subsequent follow-up. Thank God that 7/2016 was covered by the Faith Foundation in Sarawak.

For more information, please email Charlotte at smiles@sigangni.com.sg

If you would like to make a contribution to (don't forget being generous make cheque out to Care/Charities International) or (on the back please write Sarawak - (Sarawak) and Mail to Sarawak, thank you 400-111 Sarawak. New 1/2016 Faith Foundation
